## **2. Technical Discussion**

We should concentrate as a group on how to accomplish our goal. For that, we need a strategy. So, we completed the coursework requirements. I took on the position of student 1 following several evaluations. The purchase page for the website the group intends to build is the responsibility of Student 1. Our group concluded that we ought to write about the sport of cricket. So I decided to establish a purchasing website for cricket gear and other accessories that are required to play the game. After the user has finished purchasing the necessary products, a bill for the items, the total, and personal information must be displayed.

### **2.1 Main Site**

### **2.2 Presentation Page**

The presentation page was created using HTML and CSS, and as a result, when someone visits the webpage I created, it first displays the presentation page for four seconds before linking to the main page.

Here's the code below:

#### **HTML and CSS:**

```
<html>

<head>

  <!--<meta http-equiv="refresh" content="4; url=index.html" >-->

  <title>Presentaion_Page</title>

<style>

    background-image: url(background-img.jpg);

    overflow: hidden;

  }

  .background_c{

    color: white;

    position: relative;

    text-align: left;
```

```
font-size: 40px;
left: 1rem;
height: 80%;

}

.background_b{

color: white;
background-color: rgba(1, 1, 120, 0.779);
position: relative;
text-align: center;
font-size: 40px;
width: 85%;
right: -7.5rem;
height: 80%;
top: -50px;

### **3. Janet**

- \* Hacking or purposefully impeding on any of the operations.
- \* The use of indecent or insulting language.
- \* To alarm or bother.
- \* Marketing that might lead to spam

#### **1. Not utilizing any inappropriate content**

According to Janet guidelines, the website we developed does not contain any offensive, obscene, indecent, or other data, photos, or materials. We also took care to ensure that we did not include any data that may be transformed into obscene or indecent images or materials

#### **2. Is not intimidating or harassing**

According to Janet's rules, this website has taken precautions to ensure that it does not contain defamatory or threatening material that could radicalize users or others. We have also avoided content that encourages discrimination based on a person's race, gender, religion or belief, disability, age, or sexual orientation.

#### **3. Avoiding hacking or obstructing operations**

There is no attempt made to introduce malware, computer viruses, or other potentially harmful applications.
